

**Amendment(s) to the Specification:**

Please amend the specification by replacing the paragraph beginning at page 3, line 21 with the following new paragraph:

These and other aspects of the invention are apparent from and will be elucidated with reference to the embodiments described hereinafter. In the drawings:

Fig. 1 shows a prior art lamp, comprising a collapsed seal;

Figs. 2A and 2B show the collapsed seal of Fig. 1 in detail;

Fig. 3 shows an embodiment of the lamp according to the invention;

Fig. 4 shows a seal provided with a resilient clamp body;

Fig. 5 is a side elevation of the resilient clamp body;  
and

Fig. 6 is a schematic diagram of a lamp according to the invention mounted in a reflector.

Please amend the specification by adding the following new paragraph at page 7, line 7:

Fig. 6 shows a lamp assembly 60 in which the high-pressure discharge lamp 1 of the invention with an external capacitive body 45 is mounted in a lamp reflector 61 by means of a holder 62 and a cement layer 64. Electrode leads 67 and 68 are connected to a resonance ignition system 66.
